

ANNUAL SHAREHOLDERS' MEETING

PISMO COAST VILLAGE, INC.

SATURDAY, JANUARY 21, 2023

Pursuant to notices properly mailed to shareholders, the 2023 Annual Shareholders' Meeting of Pismo Coast Village, Inc. was held Saturday, January 21, 2023 at the Clark Center for the Performing Arts – Forbes Hall, 487 Fair Oaks Avenue, Arroyo Grande, California.

President Garry Nelson called the meeting to order at 9:00 a.m. Director Terris Hughes then asked those persons who have served or are currently serving in the military to stand for a round of thankful applause and proceeded to lead the Pledge of Allegiance. Director Ronald Nunlist gave the invocation.

Mr. Nelson called on Director and Vice-President-Secretary, Karen King to declare a quorum present for today's meeting. Ms. King called roll. Except for Director Wayne Hardesty, all members of the Board of Directors were present. Ms. King declared a quorum present.

Mr. Nelson welcomed the shareholders, directors, and staff to the meeting. He introduced the Board members and their spouses, as well as Lindsey Zimmerman from Brown Armstrong Accountancy Corporation who was attending the meeting to certify the election results. Mr. Nelson also introduced Pismo Coast Village's Corporate legal counsel, Joe Look who was unable to be at the meeting in-person but was available by phone for legal questions that arose during the meeting. Mr. Nelson introduced the new Pismo Coast Village General Manager, Lesley Marr and called on her to introduce the staff that were present at the meeting. Staff included Charles Amian, Sr. Operations Manager, Carol Lyon, Secretary to the Board/Corporate Executive Assistant, Brandi Collins, HR/Accounting Manager, Laura Enderson, Retail Manager, Darrell Sisk, Reservations Supervisor, Dan Hollender, Maintenance Supervisor, Josh Lockett, Security Supervisor, Allyson Neufeld, Accounting Clerk, Jessica Torres, Reservations Clerk, Stacy Norman, Maintenance staff, Yvette Fiorentino, Corporate Administrative Assistant, and Lennie Johnson, General Store Clerk.

Mr. Nelson expressed his appreciation to all the Pismo Coast Village staff for all their hard work and efforts this past year, and thanked them especially for their help and collaboration efforts during the major storms that the Resort had experienced. He commended them for their preparation and monitoring of the pump to control flooding in the Resort and quick actions regarding tree debris and downed trees. A plan is in place to continue to remove hazardous trees from noted locations.

Mr. Nelson then addressed questions that were in a letter that was received by all of the Board of Directors from shareholders regarding issues and concerns with the Resort. A response was previously sent back to the shareholders with answers to the questions. The first question pertained to the hiring process of the new General Manager, Ms. Marr. Mr. Nelson explained that the Company hired an executive search firm for the hospitality industry based out of Arizona that would be able to secure retired General Manager, Jay Jamison's position. The Board Executive Committee met with Mr. Jamison to discuss and create the General Manager's duties and responsibilities which was then forwarded to the search firm. The firm conducted a broad-based search to secure a new General Manager for Pismo Coast Village. Ten to fifteen interested applicants from the East Coast to the West Coast submitted their letters of interest and resumes. Several Zoom calls were conducted with the applicants by the Executive Committee to narrow down the pool of applicants to five individuals. This number was then narrowed down two applicants. Mr. Jamison was involved in all the interviews and was available to give input regarding the applicant who would be taking his place. Both individuals were interviewed onsite at the Resort and from those applicants, Ms. Marr was selected as the most qualified individual to take Mr. Jamison's position. He expressed his confidence in Ms. Marr's abilities, management style and methods. The second question of the letter pertained to the reduction of shareholder days at the Resort which currently is forty-five days per share. Mr. Nelson responded by reminding shareholders that the Board or the Corporation could not change the number of days without 80% of the voting shares agreeing to the change. The

Board can make recommendations but cannot make that change. The third question pertained to selling the Corporation. Mr. Nelson clarified that it was simply a rumor, and the Corporation had no intention of selling. The Board reviews offers that come in to buy Pismo Coast Village and evaluate whether they are worthy of presenting to the shareholders. To date, an offer has not been submitted worthy of consideration. Mr. Nelson again clarified that the decision to sell Pismo Coast Village would have to come from 80% of the voting shares.

Mr. Nelson then presented the Executive Committee Report. The Executive Committee consists of Mr. Nelson as President, George Pappi, Jr. as Executive Vice President, Karen King as VP-Secretary, Jack Williams as VP-Finance, Rodney Hughes Enns as VP-Operations and Terris Hughes as Ex Officio. The functions of the Executive Committee include reviewing the monthly business with the Chief Executive Officer/General Manager, as well as the current financial statement. The Executive Committee met seven times in person during 2022 and had several Zoom meetings and conference calls relating to the hiring of Ms. Marr. Mr. Nelson stated that the Resort has undergone significant changes this year with the retirement of Jay Jamison, C.E.O./General Manager, after twenty-five years of service with the Company, and the hiring of Ms. Marr as his replacement. Mr. Jamison did an excellent job of managing the Resort at very high standards, and he will be greatly missed. Ms. Marr has been maintaining those high standards since she came on board in July 2022 and continues to assure that Pismo Coast Village excels as a premier destination for our shareholders and our general public guests. Mr. Nelson commended the employees for maintaining the Resort in an efficient "A" class condition. He stated that each employee is a very valuable part of the Corporation's success and thanked them for a job well done. Mr. Nelson then gave an overview of the health of Pismo Coast Village indicating that site revenue and storage are the main contributors to the Corporation's strong financial position. All other enterprises contribute to a much lesser degree but add to the overall appeal and positive experience of the Resort. Although operating expenses have also increased and occupancy trends are going back to pre-Covid days, another solid financial year is anticipated. Mr. Nelson finished his report by thanking the Board members for their hard work, diverse knowledge and management skills that they bring to the Board which helps to guide Pismo Coast Village in a positive and progressive direction. He thanked the shareholders for their support and input throughout the year. He also extended Mr. Jamison's sentiment and thanks to the shareholders.

Mr. Nelson then introduced Mr. Pappi, who gave the Personnel & Compensation/Benefits Committee Report. Mr. Pappi introduced the members of the Committee: George Pappi, Jr., Garry Nelson, Karen King, Jack Williams, Rodney Enns, Terris Hughes and Ronald Nunlist. The Personnel & Compensation/Benefits Committee's responsibilities include negotiating an employment contract with the General Manager, review goals and objectives, setting compensation for major staff, and reviewing the employee benefits program. In 2022, the Committee met numerous times to discuss candidates and conduct interviews for the General Manager position. In addition, the Personnel and Compensation/Benefits Committee's responsibilities include monitoring the Company's 401(k) plan and its investment options along with the performance of the plan manager. The Committee met seven times during 2022, which included discussions at three meetings pertaining specifically to the Company's 401(k) plan.

Mr. Williams, Finance Committee Chair, gave the Finance Committee Report. He introduced the members of the Committee: William Fischer who joined the Committee in May 2022, Dennis Hearne who resigned from the Board in September 2022, Dwight Plumley who stepped down from the Committee in May 2022, and Brian Skaggs. Mr. Williams also acknowledged and thanked Director Wayne Hardesty for filling in for Mr. William's absence at the 2022 September Board meeting. The Committee's primary duties are to review monthly financial statements, draft the three-year forecast of finances, draft the one-year operating budget, prioritize capital expenditures, monitor completion of capital projects, recommend to the Board changes in the

rate schedule, and to submit the annual report of the financial condition of the corporation to the shareholders. The Committee met five times in 2022.

Mr. Enns, Operations Committee Chair, introduced the Committee: Harry Buchaklian, Marcus Johnson, Ronald Nunlist, Dwight Plumley, and Gary Willems. The primary duties of the Operations Committee include reviewing and recommending changes in the Shareholders' Information Manual and Calendar, reviewing and recommending changes in the Resort's occupancy rules and regulations, updating and recommending changes in the employee handbook, and implementing Board policy and procedures. Some of the items that were addressed this past year included onsite RV wash rules, RV washing times and days, and guest safety rules in the Shareholder Information Manual. The Committee met five times in 2022.

Mr. Roberts, Audit Committee Chair, introduced and thanked the members of the Committee: David Bessom, Sam Blank, Wayne Hardesty, and Marcus Johnson. Together with staff, the Audit Committee works to ensure accounting procedures supported by internal controls are working as designed. The functions of the Audit Committee include coordinating with the Company's independent accountants in the preparation of annual financial reports and audits, reviewing actions to be taken to comply with the auditor's recommendations to management, and performing random reviews of selected accounting procedures of the Company. The Audit Committee reports to the Board of Directors and is responsible for overseeing and monitoring financial accounting and reporting. They are in charge of making sure that there is a fair disclosure and transparency of the Company's activities available to the shareholders. The Company makes an investment of roughly \$60K to the outside auditors, Brown Armstrong Accountancy Corporation to conduct the annual audit and three quarterly reviews, and \$40K to Glenn Burdette who do the Company's compilations and tax returns. This investment assures that what the Company is doing is being disclosed to the shareholders. Mr. Roberts encouraged shareholders to go to the Securities Exchange Commission's website to view the Edgar filings for Pismo Coast Village for the Company's information and reports historically back to 1995. Mr. Roberts thanked the Company's new audit partner, Lindsey Zimmerman of Brown Armstrong Accountancy and her staff for all their support including Melissa Cabbez, Audit Manager who was onsite for the audit. This past year was a successful collaboration between the Audit Committee, Brown Armstrong Accountancy, Glenn Burdette, Corporate Attorney, Joe Look, and the Resort's management. The Audit Committee met five times during 2022.

Mr. Skaggs, Environmental, Health and Safety Advisory Committee Chair, introduced the Committee members: David Bessom, Sam Blank, Harry Buchaklian, and Wayne Hardesty. The Committee's responsibilities include performing environmental-related duties, health and safety reviews, and making recommendations to the President and Chief Executive Officer/General Manager on matters related to environmental and safety concerns. The Committee annually reviews the Pismo Coast Village Tsunami Evacuation Plan. The Committee also reviews updates of employee and guest related injuries given by Charles Amian, Sr. Operations Manager. The Committee conducts employee interviews regarding environmental, health and safety issues applicable to employee positions. They review the status of the EHSA Advisory List and what advisories have been completed by the Resort. This year, the Committee set up review of the various Pismo Coast Village facilities to develop new advisories of items of concern including the trailer moving operation and safety processes, storage facilities and the new RV Shop, existing housekeeping operations, and maintenance operations and safety procedures as well as the RV Store #1 and the Maintenance yard. Mr. Skaggs expressed his appreciation to Mr. Amian for attending meetings and supporting the Committee's work during the year. The Committee met five times in 2022.

Mr. Willems, Chair of the Nominating Committee, introduced the Committee: David Bessom, William Fischer, and Terris Hughes. Dennis Hearne had been on the Committee and resigned from the Board 9/2022. Pursuant to the policies and procedures adopted by the Board of

Directors, the Nominating Committee considers nominees recommended by shareholders. The Nominating Committee met five times during 2022 and submitted its recommendations for nominations for the Annual Meeting.

Mr. Willems stated that Pismo Coast Village is looking for knowledgeable volunteer Board members with qualifications or skills in financial/accounting, engineering, facility management, health and resources, environmental regulations and customer service. Shareholders who have owned a share for at least two years can apply to sit on the Board of Directors. Individuals wishing to be considered as nominees for membership on the Board of Directors or wishing to nominate an individual for membership on the Board, are requested to notify the Committee in writing, delivered to the principal office of the Company. The Nominating Committee will deliver or will cause to be delivered to a potential nominee, material for use by the potential nominee in submitting specific data, including personal history and professional skills. The Committee interviewed a few new candidates this past year, and sat a new candidate, Suzanne Colvin to take the place of Dennis Hearne after he resigned from the Board. Positions are being filled as needed. The Committee met five times during 2022.

Mr. Nelson then asked if everyone in the audience had enjoyed the Shareholders' Wine Reception. Over two hundred guests attended the event, and it was a great opportunity for the Director's to interact with the shareholders.

The Nominating Committee submitted its recommendations for the slate of nominees for today's annual meeting at the November 12, 2022 Board of Directors' meeting. Mr. Willems read the proposed slate of officers for 2023.

Ms. King explained the process of cumulative voting within the State of California under California Corporate Law. California law provides that shareholders may cumulate their votes during the election of corporate directors and states that, before cumulative voting can occur, two things must be done. First, all candidates' names must be placed in nomination prior to the commencement of voting. This was done, as the names of the directors were specified during roll call. Secondly, one shareholder must give notice that he or she intends to vote cumulatively. The Board of Directors, on May 15, 2004, passed a resolution that directs the Vice President – Secretary to state the following: "I intend to cumulate my votes." Ms. King stated that she was now declaring her intention to vote cumulatively. She then explained the procedure for properly casting votes using a ballot. With cumulative voting, for each share owned, the shareholder has eighteen votes which may all be cast for one candidate or split among two or more. If shareholders were voting by ballot during the open polls portion of the meeting, they could indicate one vote for each candidate on the ballot, or that they wanted to vote all 18 votes for one candidate, or that they wanted to split the votes among the candidates as they see fit. Ms. King declared the polls open for a fifteen minute voting period at 9:44 a.m. A recess was called, allowing those present to cast their votes.

Mr. Nelson called the meeting back to order at 10:05 a.m. Ms. King declared the polls closed. The ballot box was removed and taken to the vote counting room.

Mr. Nelson introduced Ms. Marr who presented the General Manager and Financial Reports. Ms. Marr began by running the new Pismo Coast Village ad video that will be uploaded to the newly designed Company website in a few months. She then gave an overview of her background and qualifications which included an extensive background in hospitality management as Director of Sales for Pier House Resort in Key West, National Account Manager for Marriott, Wyndham and Registry, Director of Sales and Operations for Naples Transportation and Tours, Regional Vice President for Morgan RV Resorts, and General Manager for Emerald Desert, Chula Vista RV and Sun Outdoors, San Diego Bay. She thanked the Board for allowing her the opportunity to help direct Pismo Coast Village into the future.

Ms. Marr then gave a recap of occupancy for 2021/2022 in the Resort. There was a total occupancy of 124,634 site nights with shareholders accounting for 35,086 and the general public for 89,548. This was the second highest occupancy year with 2020/2021 being the first with 127,000. The year saw a return of international visitors to the Resort providing 552 site nights and representing twenty-two countries. Occupancy projections for 2022/2023 were presented which showed that the industry continues to normalize from record high years, but remains strong. Recent extreme weather patterns created a drop in winter occupancy. However, Group, Spring Break, and summer reservations continue to be strong.

Ms. Marr then discussed revenue categories starting with site revenue which reflected an increase of \$354K over the prior year due to the increase in occupancy and a slight rate increase. The other categories included all remaining income with RV storage being the second strongest income segment. Revenue from 2022 saw an increase of \$120K over 2021. Towing expenses, substantial increases in operation costs including labor, fuel and insurance required an increase in towing fees that went into effect in July 2022. The last time towing fees were increased was in 2017. Total storage capacity is 2,200 units and there is currently a waiting list of 350 people with 35 openings for small units. There were no increases in storage rates. Ms. Marr stated that there had been a reduction in the Experience Mod Rate (EMR) which is a premium rating factor based on the Company's historical cost of injuries and future risk chances. The Company's liability insurance increased to \$126K for 2022/2023. There are currently 51 full-time and 16 part-time employees. Utility expenses came in under budget and only \$5K over the prior year. Electricity is the most significant expense at \$465K. Ms. Marr stated that moving forward, the Company should be focusing on investing in technology and infrastructure so that we are prepared to move forward with accommodating electric vehicles and alternative energy sources. Total revenue for 2022 was \$10,596,634 compared to \$9,811,887 in 2021.

Capital Expenditures for 2022 were also reviewed including the upgrade to the Wi-Fi system with new receivers and broadcast points, phase III of the installation of security surveillance cameras along the lagoon fence line, the purchase of a new truck for both RV Service and Security, a backhoe replacement and the purchase of a tractor. Total capital expenditures for 2021/2022 was \$171K. Capex projects for 2023 include replacing and additional RV Storage security cameras, the purchase of three golf carts for Maintenance, the purchase of a lowboy tilt-trailer to haul equipment, and redesigning and upgrading the sports court areas to include concrete Cornhole, Bocce, and Ladder Toss as well as the redesign of the mini golf.

Ms. Marr continued her presentation by acknowledging long term staff members who retired recently, including Jay Jamison, CEO/GM after 25 years of service, Christine McAlinden, Accounting/RV Storage clerk after 21 years of service, Rodrigo Gutierrez, Clean Team after 16 years of service, Donna Peterson, General Store Clerk after 15 years of service, and Kathleen Preston, Store Lead after 14 years of service. These members have contributed so much to Pismo Coast Village and will be greatly missed.

Goals for 2023 were presented in three categories including systems development which will focus on the implementation of the new POS system in RV retail, upgrading the accounting software, establishing a new reservation system, and integrating all systems company wide. Social responsibility was highlighted with the primary focus being environmentally conscious, moving toward a paperless operation, promoting volunteerism and local community involvement, teamwork, and training. Public Relations will also be a focus for 2023 and will involve enhancing the PCV internet presence with consistent and updated branding on the website, social media and advertising. The newly formatted website is anticipated to be ready by May 2023 with "Making Memories since 1975" as the focal point. Ms. Marr discussed the concentrated efforts that have gone into promoting PCV on social media platforms and the impact of those efforts. Advertising efforts have also increased with a new, fresh marketing look

and can be found in several RV service guides and publications such as SLO Life Magazine, California Travel & Tourism, and Good Sam. Donations to charitable causes were also discussed by Ms. Marr and the desire for Pismo Coast Village and the staff to become more involved in helping the community.

Ms. Marr then focused on the Company's accomplishments for 2022 within the Resort, locally and nationally. PCV had the second highest performance year, and the Wi-Fi network reached a new data record of 1.9TB in a single 24-hour period. Reservations Supervisor, Darrell Sisk was appointed to the South County Advisory Council and the Resort received a Good Sam Rating of 9.5 for the facility, 10 for restrooms and an 8.5 for appeal. Jay Jamison received the Pioneer Award from the National ARVC Association, and Charles Amian received the Chairman's Award from the National ARVC Association. Mr. Amian also was elected to a three-year term on the ARVC Board of Directors and serves as Vice Chair.

In conclusion, Ms. Marr stated that she promotes and will be focusing on upgrades that will create a safe, working environment for staff. The renovations of the Corporate office have been completed. Renovations will also take place for the Guard house and the storage behind the General Store as well as the remodel of the General Store. She thanked the shareholders for attending.

Mr. Nelson then read the questions that were submitted by shareholders.

A shareholder asked, "When will the palm trees in the Resort be removed?" Mr. Nelson responded that a plan is in place for the removal of trees in certain designated areas especially that are encroaching on parking spaces.

A shareholder asked, "How will the Resort prevent electric cars from charging on PCV electricity?" Mr. Nelson responded that a notice gets sent out to guests indicating that electric cars are not to be charged in the park, and Security staff monitors and addresses this issue as it arises. Currently, PCV does not have the infrastructure to handle electric charging and systems in place to monitor usage and cost. Mr. Nelson stated that with the influx of electric cars across the nation, the Board has been researching electric charging systems and possible options for the future.

A shareholder asked, "When will PCV change the gate code?" Per Ms. Marr, there is a new schedule established for changing the code on a regular basis.

A shareholder asked, "Will you be improving the Wi-Fi?" Ms. Marr stated that Darrell Sisk, Reservations Supervisor has been working on upgrading the Wi-Fi. Additional hardware was purchased, but the installation was delayed due to the extreme weather. But the upgrades will be accomplished within the next month for the north side.

A shareholder asked, "Will the phone reservations system improve making it easier to make reservations?" Ms. Marr stated that currently, the Resort is operating off of software that is aged and does not allow for upgrades. New software is being researched that would have a shareholders' capacity and live reservations confirmed by staff making the experience better for guests. Director Rodney Enns requested that shareholders contact him if they are unable to get reservations on the first and second release dates.

A shareholder submitted a comment that stated that they love coming to Pismo Coast Village.

A shareholder asked, "Why has PCV has not moved into the new RV Shop?" Mr. Nelson stated that the Company has been unable to find RV technicians and potential candidates to staff the new facility. Ms. Marr has been working on recruiting efforts to hire more staff.

A shareholder asked, "Why are there so many missing TV channels and interference?" Mr. Nelson stated that with the upgrades to the TV system, guests are encouraged to reprogram their TVs. The Company continues to work on the TV channel availability.

A shareholder asked about the future projects planned for the Resort. Mr. Nelson replied that it is still part of the general plan to renovate the Clubhouse in the near future. Currently, zoning laws in place south of Pismo Creek prevent a three story structure from being built due to a 24' height restriction. The City of Pismo Beach is still in the process of updating their General Plan, with hopes that the height restrictions will be adjusted to 35'. After which, approval would be needed by the Coastal Commission. The Clubhouse is in need of major repairs, and the renovation would prove to be of great value to the Resort with more flexibility for use. A footbridge across the lagoon is still under consideration and would also take approval of the Coastal Commission.

A shareholder asked, "Due to the storms and changing coastline, are mitigation measures being taken to reduce further erosion from the creek?" Mr. Nelson responded that the creek is a natural waterway and Pismo Coast Village has no rights or jurisdiction over the creek. The Coastal Commission oversees the creek.

A shareholder requested that the Company provide hard copy documents or PowerPoint presentations of the Board Committee reports. Mr. Nelson responded that PCV will take that request into consideration.

A shareholder requested that name tags be printed with names of guests before the wine reception, and provide the Annual Shareholders' Meeting Agenda in advance so they have enough time to research the location of a new facility. This shareholder also suggested that the next annual meeting be held in the Resort restaurant so shareholders have enough time to drink their coffee and eat their donuts before the meeting begins. Only an hour was provided to the shareholders to eat and drink before the meeting began and they could not take their food and beverage into the Clark Center Forbes Theater. Mr. Nelson responded by stating that we'll try to make changes for the 2024 annual meeting to accommodate the wishes of the shareholders.

A shareholder asked, "What is the status of Z-Lot?" Mr. Nunlist stated that the Coastal Commission is only allowing PCV to use a very small portion of the lot due to the presence of hydric soils and is not allowed to be built on. They would not allow PCV to move forward with laying a hard surface and fencing that area for storage. The shareholder also asked, "When Z-Lot was purchased, was it not the responsibility of the title company to give a clear title?" Mr. Nunlist stated that PCV has a clear title. The issue is getting approval for a permit to build. The shareholder then asked, "Does the title company have the responsibility to ensure the title is clear through the Coast Commission?" Mr. Nunlist answered no.

A shareholder asked, "Can the Board consider a shareholder rate for storage and towing as a discount?" Per Mr. Enns, providing shareholders with a discount would be considered as income and shareholders would have to receive a 1099 from PCV for tax purposes. Ms. Marr also stated that anything given to one shareholder would need to be given to all shareholders. Not every shareholder utilizes storage. So, there cannot be any differentials. It would need to be a system that all shareholders could participate within.

A shareholder asked, "Is PCV still seeking storage property and if so, when was the last report?" Mr. Nelson responded that the Company is always seeking new storage property. Mr. Nunlist

stated that it has been incredibly difficult finding available property big enough and close enough to the Resort to develop into a viable storage location that the City will issue a permit for. The only viable property that was found was beyond Sheridan Road which is eleven miles out. The Board did not think it was close enough to PCV.

Mr. Nelson thanked the shareholders for their questions, and then introduced Ms. King, who reported that the slate of nominated directors had been elected to the Board. She read the list of nominees and the total number of votes cast for each. The unaudited result of the election held at this meeting is as follows:

Bessom, David	579
Blank, Sam	557
Buchaklian, Harry	589
Colvin, Suzanne	560
Enns, Rodney	559
Fischer, William	555
Hardesty, Wayne	594
Hughes, Terris	558
Johnson, Marcus	558
King, Karen	614
Nelson, Garry	560
Nunlist, Ronald	558
Pappi, Jr., George	578
Plumley, Dwight	723
Roberts, Jerry	559
Skaggs, Brian	558
Willems, Gary	560
Williams, Jack	577

The result of Proposal 2, the ratification of Brown Armstrong Accountancy Corporation to serve as our independent accounting firm for Fiscal Year 2022/2023, passed with 563 votes in favor, 1 against and 8 abstaining.

There being no further business, Mr. Nelson thanked the shareholders for attending and adjourned the meeting at 11:01 AM.

Respectfully submitted,
/s/ Gary Willems
